

How to Import Comment Templates

Step 1: In the main menu on top of the page, click on the “Comment Templates” button.

Step 2: On the page that opens, click “Import templates from file” in the bottom left corner.

Step 3: In the pop-up window that opens, click “Choose file” and select the file you want to import from your desktop, then “Import templates from file”, and finally “Close”. Congrats, you have successfully imported your comment templates! 😊
